

## REGIONAL PARAMEDICAL SERVICES, INC.

# Press Release - For Release 1 p.m. CST, June 30, 2014

---

## Regional Paramedical Services, Inc. announces full CAAS accreditation.

**Jasper, Al June 30, 2014:** Regional Paramedical Services, Inc. today received the final word that the accreditation, they have diligently worked toward for some time now, has been approved.

What is CAAS? The Commission on Accreditation of Ambulance Services (CAAS) was established to encourage and promote quality patient care in America's medical transportation system. Based initially on the efforts of the American Ambulance Association, the independent Commission established a comprehensive series of standards for the ambulance service industry.

Accreditation signifies that your service has met the "gold standard" determined by the ambulance industry to be essential in a modern emergency medical services provider. These standards often exceed those established by state or local regulation. The CAAS standards are designed to help increase operational efficiency and decrease risk and liability across the entire spectrum of the organization.

The process includes a comprehensive self-assessment and an independent external review of the EMS organization. This independent process provides verification to your Board of Directors, city council, medical community and others that quality care is provided to the community.

*"We are extremely pleased that we have established a "Gold Standard" for the nine (9) counties we serve. Our goal was to achieve this standard in order to provide not only our counties, but the communities and citizens of those counties the highest level of care possible. We could not have achieved this without the support of our employees, and the dedication of the Management team at RPS" David Waid, Chief Operating Officer.*

*On behalf of all the owners of Regional Paramedical Services, Inc. we appreciate all the support in our communities, and look forward to serving you for another 27 + years.*

*John Wills*
